

Claim 22, line 1, change "any of claims 19-21" to --claim 19--.

Kindly add the following new claim:

-
- 23. A method according to claim 12 and comprising:
determining a color gamut characteristic of an oxide; and
comparing the color values of a pixel to the determined gamut to determine if the pixel is
an oxide.--
-

REMARKS

The present application is a U.S. national application of PCT/IL98/00393. Applicant respectfully requests that the claims attached to the enclosed International Preliminary Examination Report be used as the basis for the present amendments.

The present application, after amendment, contains claims 1-23. The IPER claims in the application have been amended to place them in proper form for examination in the US. New claim 23 has been added to better define the invention as described in the application as originally filed.

An examination on the merits is respectfully awaited.

Respectfully submitted,
R. KAMINSKY, et al.
